

Are you supporting your spouse or common-law partner who is having memory problems?

*We would like to speak to you!*

Researchers at Mount Saint Vincent University would like to talk with you to understand the impacts of using a caregiver assessment.

**What is involved?**

Participation in an interview and assessment done at a place convenient to you and a follow up interview done over the telephone. It will take 2 hours of your time. **You will receive \$50 for your time.**

**Who?**

People aged 65 and over who are supporting their spouse/partner living at home with memory problems, cognitive impairment or dementia.

**Next Steps?**

To find out more about the study or to participate, visit our website at [www.msvu.ca/nsca/caregiverassessment](http://www.msvu.ca/nsca/caregiverassessment) or contact the project office at 1-877-302-4440 (toll-free) or [caretool@msvu.ca](mailto:caretool@msvu.ca).
