

# Neuroscience minor

## Announcing a new interdisciplinary minor in Neuroscience!

The Departments of Biology and Psychology are pleased to offer a new minor in neuroscience (effective July 1, 2019). Open to students completing an undergraduate degree in the sciences, this minor serves to expand students' understanding of the brain and nervous system. This may be of particular interest to students who are planning further study in biology, psychology, neuroscience, cognitive sciences, medicine, and other related fields.

For more information, email [psyc.advising@msvu.ca](mailto:psyc.advising@msvu.ca)

To obtain a minor in neuroscience, students must fulfill the following requirements:

- ◆ BIOL 1152: Introductory Biology I;
- ◆ PSYC 1110: Introduction to Psychology as a Science;
- ◆ BIOL/PSYC 2260: Fundamentals of Neuroscience; and
- ◆ Three of the following (with at least one at the 3000 level or above):
  - PSYC 2214: Neurobiology of Learning & Memory
  - PSYC 2216: Sensation and Perception
  - BIOL/PSYC 2217: Brain & Behaviour
  - BIOL 3260: Advanced Neuroscience
  - BIOL 3322: Animal Developmental Biology
  - BIOL/PSYC 3332: Human Neuropsychology
  - PSYC 4417: Developmental Neuroscience
  - PSYC 4432: Advanced Seminar in Biological Psych
