

## **Volunteer Position for Arabic and English Speakers**

Pathways to Education is a non-profit dedicated to assisting students in the community of Spryfield overcome barriers to graduating high school, and helps them plan for bright futures in post-secondary and meaningful employment. A number of our students are recent immigrants or refugees arriving from Arabic speaking countries. Some of these students need a bit of extra help building their English language skills and completing their homework.

We are looking for Arabic speaking volunteers to help us in our after school program which takes place Monday evening from 5:30pm to 7pm. We have a budget to provide \$50 per session to help offset the cost of travel and time spent with us helping students.

Please contact the Volunteer and Placement Student Coordinator for more information.
