FUNDING OPPORTUNITIES

CLARI 2019 Action Research Assistance

The Action Research Assistance Fund is a program of CLARI. This funding has been established to support opportunities for increased engagement between community agencies and post-secondary faculty and students within the CLARI partnership. The priority of this funding program is on responding to community generated needs. Community organizations, rather than academic partners, are expected to establish project goals.

Eligible costs up to \$7500 include student time, faculty time and reasonable expenses for consumables (for example, database access, travel). When granted, the assistance will be awarded to the CLARI faculty
