

Never Share Your Passwords

Don't Share Your Passwords with Others Because...

- They could read your email or messages
- They could send messages as you
- They could fail your quizzes or tests for you
- They could post online as you
- They could damage your reputation
- They could access your information
- They could steal from you
- They could share your password with others
- It's against the law (Criminal Code 342.1)
- You are responsible for your account activity
