

Susan Willis

Sue is the Executive Director of Point Pleasant Child Care Centre, a non profit organization with three locations in Halifax. She is also the President of Willis & Associates, Early Learning and Care Consultants, part time faculty at the Nova Scotia College of Early Childhood Education and a long time advocate for quality early learning and care programs for young children.

Liz Hicks

Liz has over 31 years working within the early childhood field, as an elementary school teacher, administrator of and teacher in a part –day program for 23 years, 5.5 years as an inclusion facilitator for Partnerships for Inclusion, part time faculty with NSCECE, and she is also a private consultant working with various Centres in H.R.M providing professional development in a variety of topics, environmental and inclusion rating scales, and program coordination.

Her passion is to help educators (and administrators) find and develop their potential, so they can help children find and develop their potential.

Anthony Yue

In his research, Tony explores how individuals navigate their organized world. He grounds his work in existentialist philosophy and is interested in ideas of authenticity, bad faith and freedom of choice. These interests show up in domains such as organizational gossip, management pedagogy and various HR issues such as health and safety, leadership, career navigation and work-life balance.

Tony teaches in the areas of strategy, strategic HRM, international business strategy, and leadership. In doing so he leverages his practitioner background acquired before he moved to academia.

Jean M. Mills

Jean received her undergraduate degrees, BSA and BEd, from Saint Francis Xavier University, and her graduate degrees, MST and EdS, from the University of Wisconsin Eau Claire. She specialized in the area of communications and taught courses at all levels in the IT Department. She has delivered workshops/training sessions from California to Newfoundland on communication topics. Jean currently teaches courses in the following subject areas: communications, project management, and information technology. She facilitates the Communications Module for the Early Childhood Administrators Continuing Education program.

Paula Crouse

Paula is a full-time faculty member in the Mount's Department of Information Technology, where she has witnessed significant changes in technology over her 25+ years. Paula teaches a variety of courses in information technology and instructs the Computer Applications module for the Early Childhood Administrators Continuing Education program. She is passionate about her teaching and leading her students to a new and applied comfort level with software, most notably MS Excel. Paula holds an MEd, BEd and BSA and has completed studies in network administration. Her recent research fields include workplace learning, blended learning, and information security awareness.
