

## **Reserve and e-Reserve material**

Putting selected material in the Library's Reserve Collection is a way of ensuring that your students have equal access to valuable books, documents, DVDs and electronic files.

Creating electronic reserves is an even better way to provide 24x7 access, particularly for distance students. We will work with you to put material in Novanet and / or in Moodle. For more information on Reserves at the Mount, please contact Edythe Davidson or Carolyn Scanlan at 457-6250 and consult this site on Reserve policies & procedures:
