

Dalhousie School of Nursing

Dalhousie Nursing Student Biographies

Martha Purcell

Martha Purcell grew up in Lunenburg, Nova Scotia and currently attends the Dalhousie School of Nursing. She shared with us the reason she became a nurse: "I think it is a field where I can provide a service to many people and enjoy an exciting career." Martha became involved in the Timing of the C.A.R.E. Tool project because of an interest in speaking with caregivers, while gaining experience working as a research assistant.
