

Road to Economic Prosperity for African Nova Scotian Communities

Summary Report and Action Plan

SEPTEMBER 2020

FOREWARD

African Nova Scotians have always been dedicated to building a strong, vibrant and prosperous community. The history of Peoples of African Descent in Nova Scotia is filled with instances of community mobilization to building capacity for socio-economic self-sufficiency. For generations, African Nova Scotians have advocated for unity and prosperity, and have remained committed to building and maintaining their community by carrying each other's challenges and solving them together.

The Road to Economic Prosperity Action Plan is a continuation of the legacy of community-led efforts. The plan continues the work that African Nova Scotian communities have been doing for generations. It remains committed to ongoing community efforts, and most importantly, it provides a space for realizing future opportunities for all people of African descent.

The Bese Saka "Sack of Cola Nuts" symbol represents affluence, power, abundance, plenty, togetherness and unity.

MESSAGE FROM MIKE SAVAGE

MAYOR OF HALIFAX REGIONAL MUNICIPALITY

Systemic racism has been part of this city, from its founding, to its treatment of early Black pioneers, to the destruction of Africville in the name of “urban renewal”, and the more recent evidence of biased treatment in policing.

We have a responsibility to acknowledge that generational systemic anti-Black racism has played a role in maintaining societal status quo. This is evident in the kinds of development we see across our communities, where people live, and what opportunities they are provided.

As we work to recover from the financial impacts of COVID-19 and continue to grow the local economy, we must commit to building new pathways to economic inclusion and prosperity for African Nova Scotians.

That’s why I was so pleased to see African Nova Scotian communities throughout the municipality contribute to the development of the African Nova Scotian Road to Economic Prosperity Action Plan with support from Halifax Partnership and Halifax Regional Municipality. I am similarly gratified to see this work wholeheartedly endorsed by Regional Council.

The need for this action plan was identified in Halifax’s 2016-21 Economic Growth Plan. Community members who participated in consultations spoke powerfully to common goals of establishing land ownership and creating development opportunities, essentially putting economic development into the hands of the community it seeks to help.

Similarly, they addressed the need to reduce government policy barriers in areas such as land-use regulation, and improve education, employment, and entrepreneurship opportunities.

The responsibility to improve the economic prosperity of African Nova Scotians rests with us individually and collectively, but it will only be real and lasting if the tools are given to people who have been denied them for far too long.

Let’s work together to ensure African Nova Scotian residents play a significant role in building a prosperous future for the Halifax region, where everyone can match their ambitions to opportunity.

MESSAGE FROM

IRVINE CARVERY & DOLLY WILLIAMS

CO-CHAIRS OF THE ADVISORY COMMITTEE

Economic development for the ANS community matters for all of Halifax and Nova Scotia. While Halifax has demonstrated strong and continuous economic growth over the past 10 years, African Nova Scotians have not equally benefited, and our communities continue to be impacted by growing socioeconomic disparity.

Over the years, there has been government and private sector support for African Nova Scotians' economic development initiatives, but there has never been a concerted effort or strategy dedicated to improving our economic well-being and prosperity. That is, until now.

This Road to Economic Prosperity Action Plan is a five-year collaborative strategy developed and owned by all of us, the African Nova Scotian community, to advance economic development and community priorities, and to coordinate, align, and bring greater awareness to work already being done.

This plan is the first of its kind. Most of us have lived through versions of this work, but this is the first time it has been put together as a formal economic plan and endorsed by both the community and government.

While the plan is specifically built for our community, it helps build success for all who live in Nova Scotia. It aims to close employment and housing gaps, increase collaboration and investment, and improve economic and quality of life outcomes for the ANS community.

When we are successful, we will have addressed decades and centuries of systemic and institutional barriers that have prevented growth in our communities. We want a healthy and prosperous future, and we are hopeful that we will inspire and lay the groundwork for a Nova Scotia-wide agenda.

Thank you to the ANS community for your support and contribution to this plan, particularly to those who participated in our consultation sessions to identify key issues, opportunities, and themes to be addressed. We look forward to working together with you over the next five years and beyond to lead the way for economic prosperity for all African Nova Scotians.

Executive Summary

The Road to Economic Prosperity Action Plan (REPAP) is a collaborative plan developed and owned by the African Nova Scotian (ANS) community to advance economic development and community priorities. A number of consultations have been held with African Nova Scotians in Halifax Regional Municipality (HRM) to identify key issues and solutions to address historic and present-day economic challenges and opportunities.

The Road to Economic Prosperity Action Plan identifies strategic priorities, objectives, and actions to drive growth and prosperity in ANS communities.

THE THREE STRATEGIC PRIORITIES ARE:

1. **Build Unity and Capacity Among African Nova Scotians**
2. **Establish Land Ownership, Develop Infrastructure, and Attract Investment**
3. **Increase Participation in Education, Employment, and Entrepreneurship**

As part of the effort to better engage African Nova Scotian communities, Halifax Regional Municipality's African Nova Scotian Affairs Integration Office (ANSAIO) and Halifax Partnership have been instrumental in ensuring that, as a municipality, we are doing a better job engaging with and delivering services to ANS communities in HRM.

Since its creation in 2012, ANSAIO has focused on working with HRM business units and ANS communities to improve municipal service delivery, foster better engagement, and promote employment equity within HRM. By working internally across the organization and collaborating with the community, ANSAIO continues to support efforts to provide improved, quality, and culturally appropriate service delivery to the community.

As Halifax's economic development organization, Halifax Partnership (the Partnership) continues to prioritize and focus on improving African Nova Scotians' attachment to the labour force while supporting business development and capacity building in ANS communities.

EXECUTIVE SUMMARY

HRM's and the Partnership's shared commitment to African Nova Scotian economic development and prosperity is evident in Halifax's Economic Growth Plan 2016-21, the municipality's economic strategy. Key actions within the Economic Growth Plan for African Nova Scotian communities include:

Action 10. In partnership with the Province, develop an approach to resolving ownership, taxation, and planning issues on residential and community-owned properties without clear title.

Action 12. Develop and implement an African Nova Scotian Action Plan to advance ANS economic development and community priorities.

Action 33. Establish ANS and Mi'kmaq/Indigenous Peoples streams under the Halifax Connector Program.

Action 34. Identify and share existing programs, services, and outcomes related to the workforce attachment of Mi'kmaq/Indigenous Peoples, African Nova Scotians and other groups at risk of exclusion.

Action 38. Connect newcomers, African Nova Scotians, Mi'kmaq/Indigenous Peoples, youth, and persons with disabilities to employment opportunities at HRM.

Action 43. Ensure HRM's culture investments reflect Halifax's diversity.

Action 59. Consider and, where possible, incorporate community benefits as part of the development approval process in HRM communities.

Both ANSAIO and the Partnership are leveraging broader initiatives to advance their work, in particular the United Nations International Decade for People of African Descent (2015-2024). This has informed the work of the Partnership and HRM to formally acknowledge that people of African descent represent a distinct group whose rights must be promoted and protected as we work toward the stated mandate to eliminate economic disparity outcomes by 2024.

The REPAP also aligns with HRM's Diversity and Inclusion framework and its strategies which support HRM business units to recognize diversity and inclusion in all policies, practices, programs, and services, with the goal of addressing and removing systemic barriers for employees and residents. This includes the Culture and Heritage Priority Plan which will identify the municipality's role in supporting diverse and inclusive cultural development and heritage conservation by looking at built heritage and cultural landscapes, cultural facilities, and living heritage; ongoing work on the social equity policy; and HRM's Employment Equity Policy.

In addition to municipal and provincial commitments to boost economic development and prosperity in ANS communities, the federal government has also identified strengthening multiculturalism and addressing the challenges faced by Black Canadians as a priority. Building on previous commitments, Budget 2019 (started in 2019-20), allocates \$45 million over three years to support a new Anti-Racism Strategy. The strategy will support initiatives to counter racism with a strong focus on community-based projects which could include new public education programs that help to build skills and provide leadership and employment opportunities. At the core of this strategy will be an Anti-Racism Secretariat that will work across government to identify opportunities, coordinate activities, and engage with diverse communities. In addition, Budget 2019 proposes to provide \$25 million over five years for projects and capital assistance to celebrate, share knowledge, and build capacity in Black Canadian communities.

The implementation of the Road to Economic Prosperity Action Plan will be guided by the Road to Economic Prosperity Advisory Committee (REPAC) which will ensure alignment, collaboration, and regular engagement with ANS communities.

IMPLEMENTATION WILL INCLUDE:

- A public launch of the REPAP.
- An annual gathering of ANS communities and organizations to review and discuss priorities and progress.
- Research and analysis on ANS community-level statistics and development of the African Nova Scotian Prosperity and Well-being Index.
- Continuous community capacity building within ANS communities.
- Alignment of the Action Plan with HRM business plans.
- Regular reporting to ANS communities and Halifax Regional Council.

The Road to Economic Prosperity Action Plan is an opportunity for all orders of government, residents, partner organizations, and allies to support African Nova Scotians in our region working towards sustainable community economic development priorities.

COMMUNITY CONSULTATION AND ENGAGEMENT

Engaging African Nova Scotians throughout Halifax Regional Municipality has been, and will continue to be, critical to understanding key issues, opportunities, and priorities that will drive economic development and prosperity in ANS communities.

ANSAIO and the Partnership have hosted a number of consultations to better engage and connect with ANS communities. The first and largest consultation was the **Road to Economic Prosperity: A Gathering of African Nova Scotian Communities and Neighbourhoods** held in North Preston June 7-8, 2018, which brought together community organizations and individuals from ANS communities.

THE OBJECTIVES OF THE EVENT WERE:

1. Information sharing on the current state of ANS communities.
2. Sharing of promising practices and ways to support one another.
3. Discussion of activities across all levels of government and how these activities can enhance the growth and economic prosperity of ANS communities.
4. Providing input into the development of the Road to Economic Prosperity Action Plan.

This was one of the few times that ANS communities have connected and shared their experiences, challenges, and projects related to economic development and prosperity. Participants from five communities and two organizations presented on development initiatives. It was inspiring to see communities sharing their work with a desire to encourage and support one another.

The keynote speaker was Nene Kwasi Kafele, founder of the Tabono Institute, a community-based research, public policy, archiving, and capacity building institute committed to supporting the priorities of the African community in Canada and internationally. Kafele presented a model for creating unity in African communities, shared best practices from other African communities, and participated in conversations with community members. His experience and insights have helped shape the Road to Economic Prosperity framework and have influenced the priorities and actions within the REPAP.

Additional consultations have been held with Beechville, Preston Township (Lakeloon-Cherry Brook, North and East Preston) and Upper Hammonds Plains.

KEY ECONOMIC DEVELOPMENT THEMES FROM THE CONSULTATIONS INCLUDE:

- The need to build unity, capacity, and leadership among and within ANS communities.
- The issue of establishing land ownership and developing infrastructure and attracting investment within ANS communities.
- The need to improve education, employment, and entrepreneurship outcomes for African Nova Scotians.
- The need to identify and address system-wide legislation and municipal by-laws that impact ANS communities.

A number of social challenges and priorities related to poverty, health, and justice issues were also identified and will be shared with relevant partners and stakeholders.

It was clear from the consultations that this is only the beginning of the collective conversation towards African Nova Scotian economic prosperity. There is a need and a desire for more opportunities to have rich conversations, to share and learn from one another, to showcase success, and to identify shared challenges, solutions, and actions.

SETTING THE CONTEXT: THE ROAD TO UNITY

During the Road to Economic Prosperity event, the facilitator Nene Kwasi Kafele set the context for the Road to Unity for African Nova Scotians. Kafele shared that African villages are usually circular, which speaks to continuity, alignment, and interdependence. This circularity is the first element of unity, and unity is about how we organize ourselves as a community.

In addition to unity there are five critical elements and archetypes within African communities which must all exist and be in balance to thrive: fire, water, earth, minerals/rocks, and nature. By knowing these elements, it helps channel a community's focus – who to go to, when to go to them, and how to seek their support and input. When these elements are unbalanced, a community can become confused, disorganized, and vulnerable.

In thinking about different ways to improve economic prosperity, ANS communities need a coherent, organized vision, strategy, and plan.

This requires five things:

- 1 Ethical and competent leadership.
- 2 Strong, progressive, and effective institutions with Africentric representation and values.
- 3 Economic infrastructure that generates economic activities that benefit the community.
- 4 A coherent strategy for healing, trauma, and emotional well-being.
- 5 A cultural knowledge and understanding driven by worldviews and value systems of what it means to be an African.

ANS communities must focus on priorities and activities that bring unity, things that demonstrate value and can be understood and replicated by others. The pursuit should be done with honesty and integrity and be grounded in African identity. Focusing on priorities and taking action worthy of emulation is the best demonstration of community progress. That is how we will build critical mass.

ROAD TO ECONOMIC PROSPERITY FRAMEWORK

ROAD TO ECONOMIC PROSPERITY ACTION PLAN YEARS 1-2

IMPLEMENTATION AND ENGAGEMENT

This is an action plan for the first two years of a five-year strategy which outlines what will be done, who will be involved, and how we will measure success. Complex initiatives will have their own implementation plans developed. Some actions will carry over into Years 3-5 and will require additional financial and human resources from public and private sector partners.

ROLES:

Governance:

- The Road to Economic Prosperity Advisory Committee, supported by the Elders Council, will provide leadership, oversight, and strategic guidance.

Road to Economic Prosperity Advisory Committee

Membership

- A member from each Black community in HRM
- Community organizations involved in economic development and/or capacity building
- Resources/support person from the primary agencies
- Youth and elder representation

Role

- Review and approve terms of reference
- Use five elements for developing ANS communities
- Discuss & support the action plan
- Prepare for presentation to community at large
- Develop a work plan and timeline for completion
- ANSAIO & Halifax Partnership will provide support

How We Work

- Listen with care and sensitivity to the full range of all members' interests
- Remain open to new ideas and concepts
- Offer possible alternatives when an agreement cannot be reached
- Discuss everyone's positions on matters of group interest
- Agree on how to communicate these as a group to external parties

Values

- Ethical and competent leadership
- Strong, progressive and effective institutions with Afrocentric representation and values
- Economic infrastructure that gives back to the community
- A coherent strategy for healing, for trauma, and emotional well-being

Implementation:

- Halifax Partnership and Halifax Regional Municipality are the coordinating bodies responsible for leading the implementation of many of the actions defined in the plan. Halifax Partnership will also be responsible for tracking and monitoring progress against goals and objectives, including the development of the African Nova Scotian Prosperity and Well-being Index.
- The Road to Economic Prosperity Advisory Committee and Elders Council lead several actions within the plan.

Stakeholders:

ANS communities, Halifax Regional Municipality, and Halifax Partnership will engage with a variety of stakeholders to implement the plan.

These include:

- Private Sector
- Provincial Government
- Crown Corporations
- Federal Government
- Business Associations
- Post-Secondary and Training Institutions
- Not-for-Profit Sector
- Arts and Culture Sector

MEASUREMENT & EVALUATION

The African Nova Scotian Prosperity and Well-being Index, modeled after the Halifax Index, will be developed to track and report on economic and community progress and well-being, progress against actions, and key challenges, opportunities, lessons learned, and best practices. The Index will be presented annually to ANS communities, partners, stakeholders, and funders.

Halifax Partnership and HRM staff will provide triannual progress reports to Regional Council.
