

RETURN TO CAMPUS: 9 WAYS WE'RE KEEPING YOU SAFE

As we return to studying and working on campus, here are some ways MSVU will help you stay safe:

1.

Physical distancing

Watch for signage denoting changes to available seating in common areas and line-up spacing, for example.

2.

Reduced room capacities

Adjusting capacity limits in indoor spaces.

3.

Plexi-glass installation

Where physical distancing cannot be guaranteed.

4.

Mask use in common areas

5.

Enhanced cleaning protocols

For both high touch surfaces and individual offices.

6.

Hand sanitizer stations

Found across campus.

7.

Additional outdoor seating

For those who may choose to eat lunch or spend some time outside.

8.

Increased ventilation

Longer running times for building ventilation systems, with filters.

9.

Traffic flow changes

Directional signage in place.

WHAT YOU CAN DO:

- Continue to follow all Nova Scotia Public Health guidelines, like wearing a mask and washing your hands often.
- Make getting tested for COVID-19 a part of your routine, even if you're asymptomatic.
- Monitor for symptoms of COVID-19 and stay home if you have any (and get tested).
- Get your COVID-19 vaccine when you become eligible (provided you're able to do so).

Onward together
