* Tuition is due at the start of each term

This is an estimate of tuition; Actual amount depends on the number of courses you take, and in what subject

**Residence fees and meal plan fees are due at the start of each semester, you pay the amount listed here in September, then again in January.

*** This sheet assumes you are purchasing the most comprehensive meal plan and very little additional food is required. In Westwood and Birch 5, you may have selected a much smaller meal plan (called "flex") but you will have to purchase almost all of your food at the grocery store and cook for yourself. If this is your choice, please budget about \$400/month to start. The lowest cost residence spaces (Assisi) will mean a higher cost meal plan, since you don't have access to a kitchen.
